Report of Health Officer

I herewith submit my report as Health Officer of the Town of Epping for the year ending January 15, 1918. By vote of the Town, money was raised to repair and make the sanitary arrangements at Watson Academy what they should be, but owing to existing conditions prices being much higher than in the past, there still remain some things that ought to be done and I recommend that a necessary amount of money be raised to complete the same, such as altering the steam pipes and extending same to the toilets, painting the building inside and out, etc. At the beginning of the school year I visited all the schools, as had been the usual custom, and have endeavored to enforce the vaccination laws. In the spring I had a clean-up week, which was the means of getting rid of a lot of rubbish and making things more sanitary. We have had in the past year one case of membranous croup, two diphtheria, two typhoid fever and several cases of measles and chicken pox. I again ask the assistance of all the citizens of the Town; let us co-operate, and next year try to improve over the past and by each doing our bit we shall feel proud that we live in the Town of Epping.

Respectfully,

GEORGE A. GILMORE, *Health Officer.*
